

A-level Biology

Term	Year 12	Year 13
Autumn 1	Cell Structure Biological molecules <i>Autumn 1 Assessments in lessons</i>	Photosynthesis Respiration Communication and Homeostasis Excretion <i>Autumn 1 Assessments in lessons</i>
Autumn 2	Cell membranes Nucleotides <i>Autumn 2 Assessments in lessons</i>	Neuronal communication Hormonal communication Animal response Plant response Cellular control <i>Autumn 2 Assessments in Hall</i>
Spring 1	Cell division, diversity and differentiation Enzymes Plant transport <i>Spring 1 Assessments in lessons</i>	Patterns of inheritance Manipulating genomes Biotechnology Ecosystems Sustainability <i>Spring 1 Assessments in lessons</i>
Spring 2	Plant transport Exchange surfaces Animal transport <i>Spring 2 Assessments in lessons</i>	<i>Mock Paper, Review and Revision</i> <i>Spring 2 Assessment in Hall</i>
Summer 1	Evolution Biodiversity Disease	<i>Review and Revision</i>
Summer 2	Biodiversity continued Disease continued Revision <i>Spring 2 Assessments in Hall</i>	Exams Begin
